

## Mathematics Honor Pledge

---

While I am a student at Hinsdale Central High School, I promise to maintain academic integrity. I promise that I will not give or receive help/answers during tests. I promise I will not give or receive unpermitted help/answers on classwork and daily assignments. I promise that my grade is based on work that I have completed myself.

I understand that the following actions are examples of academic dishonesty:

- Copying daily homework assignments from another person
- Looking at another student's test or quiz during testing time
- Copying another student's work during a test or quiz
- Letting another student copy work from my homework, test, or quiz
- Discussing test or quiz questions or answers with students who have not yet taken it
- Being absent on the day of a test/quiz to avoid the assessment at the scheduled time
- Storing or accessing information on any electronic device
- Any other action that results in a student earning credit for work that is not theirs

I acknowledge that there is often pressure to cheat. There is pressure to maintain a certain grade. There is pressure to help out a friend. There is pressure from competing for class rank and scholarships. I promise to withstand this pressure and maintain my integrity. I promise to help others maintain their integrity as well.
